General Conditions Tuesday A. M.

Storms of great intensity are noted this morning off the New England coast, and in the northern slope of the Rocky Mountains. The northeastern disturbance has, within the last 24 hours caused precipitation in the middle Atlantic and New England states, attended by brisk to high winds and gales. New York City reports a 24 hour rainfall of 1.32 inches with maximum wind velocity of 46 miles per hour. The northwestern disturbance although causing considerable cloudiness has not as yet caused appreciable rainfall in its front. An extensive area of high pressure has its center located over Kentucky. Unseasonably cool weather continues in the upper Ohio valley, in western North Carolina, and throughout the middle Atlantic and New England states. The temperature has risen quite decidedly in the section of the country lying between the Mississippi river and Rocky Mountains. Partly cloudy and warmer weather is indicated for this locality tonight and Wednesday, with showers and thunderstorms probable for Wednesday afternoon or night.

GETTING READY FOR BIG WORK

NEW COUNCIL MEN SWORN IN—WILL HOLD FIRST MEETING TUESDAY NIGHT.

PUSH SEWER PROJECT

Vacancies On Board of Local Improvements Must Be Filled—Will Then Take Up Commercial Avenue Sewer.

All the new members of the city council have been sworn in excepting Alderman Burke, who will of course be qualified for service by the time the new council is to meet, which will be next Tuesday night. The new members are Alderman Mehan, Davis, Burke, Lawler, Gorman, Snyder and Thomas.

Probably the mayor will be prepared at the next meeting to make up his committee, filling from among the new members the vacancies occasioned by the retirement of the old. The most important of these committees right now is that on Local Improvements, which has two vacancies, those of Alderman Neff and Nordman. When this board shall again be full and ready for business, it will doubtless take up the important Commercial avenue sewer project and push it through with all possible energy. The engineers have done their work; the estimates of cost are in the hands of the city's attorneys, and only a final decision of the board is necessary to give the matter a fresh start. The petition of citizens in the upper part of the city, for a division of the city into two districts, will doubtless receive due consideration.

The old board met yesterday afternoon and appointed M. J. Howley as commissioner to assess the benefits in the case of the Ohio street improvement, and Han. Walter Warder to perform a like service in the case of the Twenty-eighth street improvement.

Returning to Cairo he was made manager of the Paul G. Schuh retail store and in 1903 was admitted as partner and the firm name changed to Paul G. Schuh & Sons. SECOND "NIGHT IN BOHEMIA" IN AID OF SAN FRANCISCO

Notwithstanding the brilliant success which attended the production of "A Night in Bohemia" by the local Elks lodge on Easter Monday evening, it is safe to prophesy that it will be eclipsed by the second production on next Friday evening, April 27th, when it will be reproduced for the benefit of the San Francisco sufferers. As the performance will be entirely under local direction, more attention will be given to all details, the costumes will be more gorgeous, the light effects more complete, the properties pertaining to the production will all be on a newer and more brilliant scale. Messrs. Fred Atwood and Charles Feuchter, Jr., returned from St. Louis yesterday where they secured a very complete outfit of costumes for all the parts of the performance. They were continuously received by those who deal in this class of goods and were given generous aid in all their efforts, because, largely, the object of the performance is to aid San Francisco.

The "Tasty Girls" will report for duty in brand new uniforms of "Khaki." "Desty Rhodes" will blossom forth in more splendid attire than before, but the announcement that will doubtless be received with greatest satisfaction by the general public is that T. J. Pryor and Miss Sisteretta Hopkins, in "Shabtown Follies" will positively make their final farewell appearance on this occasion. Cairo opera house Friday, April 27th. GENTLEMEN 'VAGS' WILL GO ABROAD

Six of Them Fined \$100 Each and May Have to Work on the Streets.

The six gentlemen looking vagabonds, who were arrested Monday by Chief Egan and Officer Nichols were arraigned in Judge Ross' court yesterday, charged with vagrancy and were fined \$100 each. None of them paid for sure bond. The court refused to accept in payment the big "dash roll" which was found on one of the prisoners, neither had Judge Ross any say for the hair dye, nor for the mustache paste. The judge has no weakness in any of these directions. The court had also hardened his heart in so far that he would not grant a stay of execution with the usual proviso that the prisoners leave the city within an hour or less. In view of all these circumstances the six "gentlemen of the road" are in a hard way for they are again in the city jail and are likely to be further humiliated by the city jailer who may be heartless enough to require them to perform some honest and very necessary toil with the rake or spade or broom, upon the streets of the city.

One report is that these six men were enroute from Danville, Ill., for the Paducah street fair, where they hoped to "turn up" a dollar or two.

Will Be Taken Remains of Clarence M. Thomas, Who Was Fatally Injured By The Cars.

The remains of Clarence M. Thomas, who was fatally injured by an Illinois Central train at Eighth and Ohio streets Tuesday afternoon will be taken to Nottle, Ill., for interment.

The wife of the decedent arrived from their home at Dixon yesterday morning. The poor woman was shocked by the sudden shock of her husband's awful death and with difficulty controlled herself sufficiently to make arrangements for his funeral. Dr. V. F. Grinstead gave her advice in the matter which was of great assistance and he also wired to the father of the decedent who was expected to arrive here last night to accompany the remains to the last resting place.

The decedent had \$2,400 life, and \$500 accident insurance.

PARTS ASSIGNED ON THE RIVERS

FOR OPERETTA "BOBBY SHAF-TOE" TO BE PRODUCED BY SENIORS.

Of Cairo High School on Class Day—Synopsis of The Play—Eight Principal Characters and a Large Chorus.

Mrs. Laura A. Miller, supervisor of music in the public schools and Miss Winifred Ellis, teacher of elocution in the High School have assigned the parts for the operetta, "Bobby Shaftoe" which will be performed by the senior class of the High School in Assembly Hall on class day.

The cast is as follows: Bobby Shaftoe, the hero, Herbert Steinel; Betty, the heroine, Alice Morse; The Earl, an aged suitor, Eugene Strong; The Countess, Mabel Engler; Jeems, the valet, Albert De Baum; Lobsterpot, Betty's father, Robert Goldsmith. A chorus of twenty of the class members will sing sailors' and fishermen's and sailor maiden's choruses.

The play tells a pretty little story. Bobby Shaftoe who loves and is loved by Betty goes to sea and in his absence her mercenary father tries to marry her to the aged Earl who has buried three wives and desires Betty for his fourth. They persuade Betty to believe that Bobby has gone off to marry another girl and just as the bridal chorus at the wedding of Betty and the Earl is about to be sung in walks Bobby and the mercenary father and the Earl full of guile take to the tall and true.

The pupils are entering into the spirit of the play with great zest and the production promises to be a very pleasing innovation, taking the place of the old method of reading numerous essays on such thrilling topics as "Beyond the Alps Lies Italy," etc., etc., etc.

McKilgits, of Columbus, will give another of their popular card parties at St. Patrick's Hall this evening. A large attendance is expected.

Mississippi River Commission Wants Coal—The Joe B. Williams' Big Tow—Coal Shipments Stop.

Wash. Houshelt went to the lower river with an empty barge.

The river marked 34.1 feet on the Cairo gauge at 4 p. m. yesterday showing a fall of 1.0 foot in 24 hours.

Herman Paspeke brought up a barge of lumber from the lower river for the Chicago Mill and Lumber company.

Memphis News-Schmitt: One of the biggest tows of lumber ever received here went up the river Monday, bound for the lumber mills. She held so close to the west bank, however, that it was impossible to make out her name. She and six barges loaded to the limit with shims for cooperage supplies, and eight barges carrying logs.

Courier-Journal: There is little prospect of shipping any more coal from the Pittsburgh pools for some time, as it does not pay to send small shipments at different times and keep so many boats in commission. In the next month the coal shipping companies will get all their boats back, all the supplies, and then, on the next good rise, send immense tows south.

The Mississippi River commission has asked for bids on 200,000 tons of bituminous coal in barges delivered at St. Louis. The document was signed by Wm. R. Lamb, captain engineer's corps of the United States army and secretary of the commission. The bids for the fuel will close on April 30 at the headquarters of the commission in the Fuller building in St. Louis.

New Orleans Pleasure: The towboat Joseph B. Williams was due last night from Louisville with 23 boats of Pittsburgh coal, 6 barges of railroad iron and one barge containing 45,000 bundles of cotton, ties and 2,714 barrels and barrels of glassware. The Williams left Louisville with 30 boats of coal, 3 barges of railroad iron and 1 barge of cotton, ties and glassware, and at Vicksburg dropped 7 boats of coal and added 4 barges of railroad iron. She will lay over until tomorrow to undergo her annual government inspection, and when she leaves will take up 14 empty coal boats, 3 barges and possibly a barge of lumber.
